

Developing Process Excellence Leaders

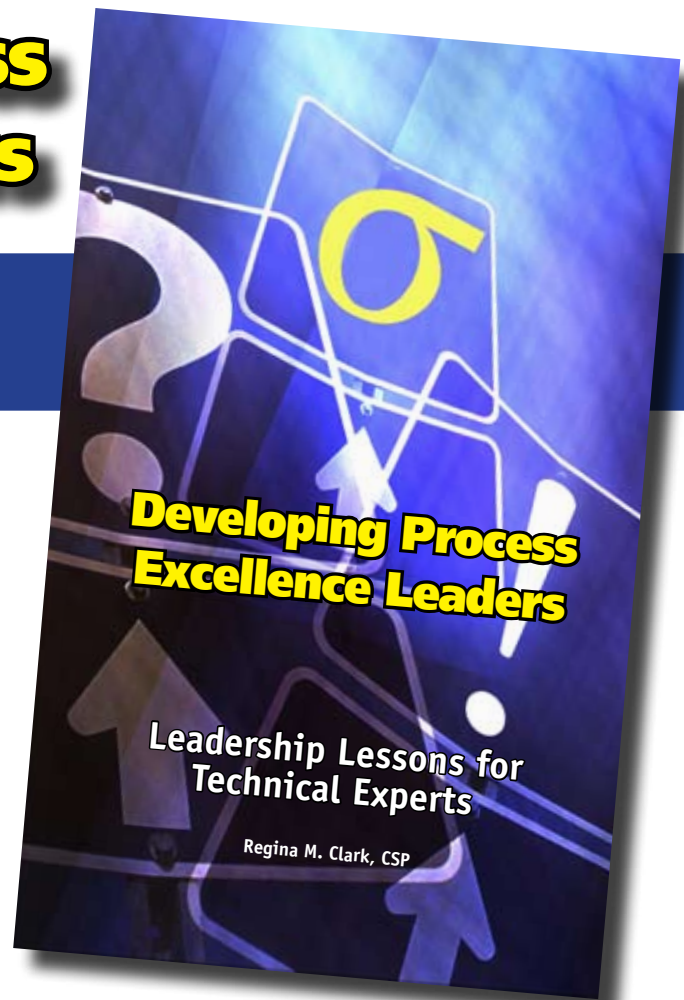

Leadership Lessons for Technical Experts

- Retail Selling Price \$19.95, quantity discounts available
- Page Count 120 pages, PCT Publishing

Thousands of technical experts lack leadership skills. They have knowledge and expertise but don't know how to network and influence.

Inside *Developing Process Excellence Leaders* you will find checklists, role plays, observer sheets and strategies for helping your technical subject matter experts develop leadership skills. This invaluable resource gives you the tools you need to launch your own Master Black Belt or Process Excellence Leadership program.
